Improving Your Organization One Course at a Time

Your employees are critical to your organization's success. Properly trained employees are more productive, make fewer mistakes, report higher job satisfaction, and contribute to workplace safety. Yet workplace training often takes a back seat to day-to-day operations, due to time, cost, or lack of content.

Litmos Content delivers engaging, affordable, and relevant out-of-the-box e-learning courses that build essential skills and competencies in multiple industries. With Litmos LMS, learners across the organization gain anywhere, anytime access to high quality, self-paced e-learning courses within an intuitive user interface, consistent across mobile devices. Litmos Content includes dozens of packaged integrations with information systems and applications, making it easy to reach learners in the systems they use every day. Litmos Content solutions enable you to measure how trained employees increase sales, customer satisfaction and retention, maintain compliance, and reduce risk.

Jumpstart Learning Programs

Even the best employees need training in essential business skills, health and safety, and compliance. Specific job functions require more training for new hires, such as sales, HR, project management, and customer service. Specific industries — including healthcare, manufacturing, and hospitality — have their own essential learning requirements. Jumpstart your training programs with quality content that will engage users and allow them to perform better, and become productive faster. Organizations and job functions embarking on a formal training program can get started quickly with applicable Litmos Content solutions. For organizations with a formal training program, Litmos Content can complement your specific training by supplying fundamental knowledge in many areas. Litmos Content courses are available through the Litmos Marketplace.
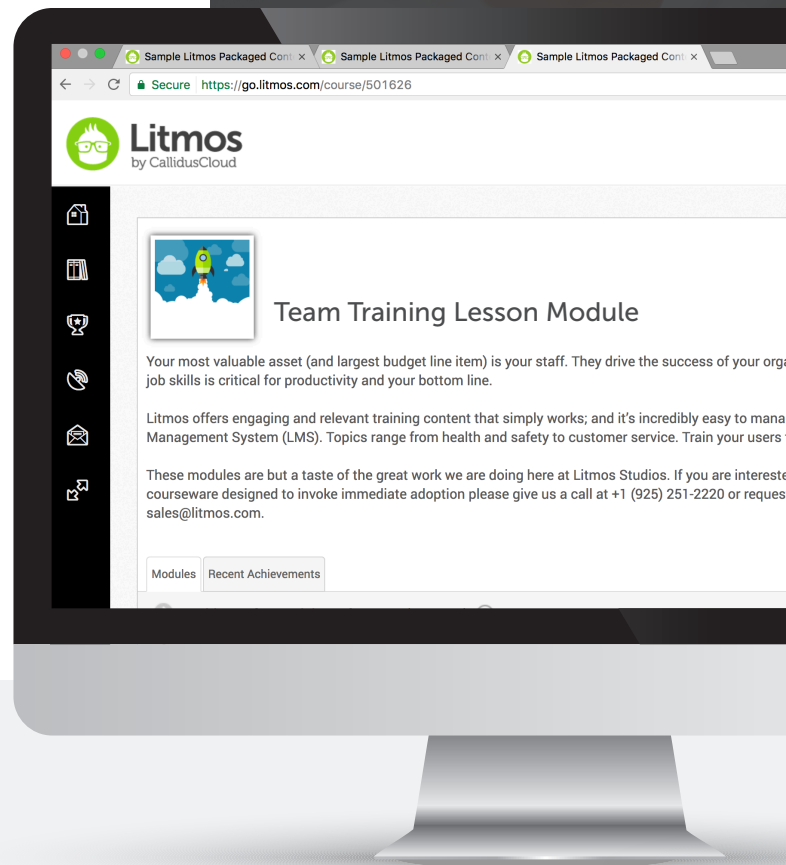

Improve
Learning Outcomes

Litmos Content presents quality content in ways that engage users and deepen their understanding of important concepts. An in-house course production studio develops engaging experiences that include high quality video, animation, and 360-degree video, responsive across devices. Learners consume self-paced content from their computers or mobile devices, via their browser of choice or a mobile app. Specialists in instructional design, production, research, technical operations, and program support ensure courses leverage the latest information, modern adult learning theories, and state-of-the-art production technology. Courses authored and delivered by subject matter experts in various industries and lines of business—including HR, occupational health and safety, sales and marketing, leadership, information security and more—increase credibility with learners and command attention.

Litmos Content includes tools to maximize knowledge retention over time and reinforce key points. Course assessments test learner understanding immediately, while the Litmos Boost® app allows managers to easily schedule push notifications of important concepts to learners on any device, including wearables
