

Enable smarter,
faster corporate
learning with
Litmos training

Learning is at the heart of any top-performing organization. In a world where change is the only constant, businesses must now be able to reskill, upskill, onboard, maintain compliance, and protect the physical and mental health of workers with greater agility than ever. As companies seek the “adaptive advantage,” learning is critical to moving the organization forward with a centralized strategy but also with agile, targeted paths for different learner groups both inside and outside the company.

Why Litmos Solutions?

Litmos solutions enable companies to leverage learning as a key connection between people and performance – both individual and organizational. Trusted by thousands of global brands, Litmos Training delivers powerful but easy-to-use LMS features for admins and learners alike. Litmos Training Content is an off-the-shelf content library full of professionally-created, video-based courses on topics from compliance to sales and service skills to health and well-being – and everything in between.

The combination of the LMS and content library save vast amounts of time and effort for L&D teams. Countless tasks and communications can be automated. Content can be created from scratch with the built-in Content Author tool or curated from the ready-to-use library. And, the interface can be easily customized to match the company’s brand, even offering different layouts and designs to create unique experiences for different audiences.

Litmos solutions enable businesses to deliver critical knowledge to employees, customers, and partners at any time, on any device – even offline. They empower employees to perform at their best; increase customer engagement and loyalty; and deepen commitment and contribution from the extended enterprise. It’s the only learning platform a company needs to centralize and deliver training across the entire business.

Key features

Built-in content authoring

Create dynamic and visually-appealing SCORM content within the LMS. Designed to support everyone from the novice trainer to the expert instructional designer, this eliminates the need for external content creation applications.

Industry-leading security

Trust that all data is encrypted and stored behind a firewall, transferred over HTTPS, keyed with a private certificate, and GDPR compliant.

Fast, automated user onboarding

Get learners started immediately with automated email invitations, an intuitive UI, and single sign-on through integrated systems. Create rules to automatically assign courses, learning paths, and team placement.

Custom UI branding & dashboards

Customize Litmos Training to match your company's brand. With basic CSS and HTML knowledge, admins can customize the interface down to the finest details from fonts and colors to headers and footers and more. Also, dashboards can be configured to meet the needs of different learner types.

Quick deployment & integration

Deploy in minutes not months and easily integrate with the rest of your ecosystem. Choose from 30+ out-of-the-box connectors or build your own using open APIs.

Limitless global scalability

Scale your solution up to millions of global users. You can even start small and scale as your needs grow, adjusting as you increase your number of learners or expand into new areas of your business.

Rapid automation & embedded AI

Automate alerts to prompt users to take training. Define assignment rules; schedule automated reports; and score learners' video assessments with AI-powered analysis.

Robust reporting & analytics

Measure and influence performance; and track course completions, test averages, content popularity, and more with built-in reporting and analytics.

Universal accessibility

Make training accessible from anywhere 24/7 on or offline, and to learners with disabilities. With 35+ preconfigured languages, users can select their language of choice, eliminating barriers to learning.

High engagement & adoption

Increase engagement with built-in tools like gamification (leaderboards, badges, points), interactive hotspots, achievement social sharing, and discussion forums.
