Sample Courses

Leading Learning – Understanding Diversity and Inclusion

Workplace diversity, in its broadest sense, refers to all the differences and experiences employees bring to work. Learn about these benefits of a DE&I approach and how you and your organization can create a more diverse and inclusive workplace.

Leading Learning – Giving Feedback

Did you know that 75% of employees believe feedback is important, and 65% of employees want more feedback than they’re getting? This course will help you learn the skills you need to give feedback to help build connections, strengthen relationships, and create a trusting work environment.

Leading Learning – Tackling Unconscious Bias

Everyone has some unconscious biases, but how do we recognize them and prevent them from unfairly influencing our decisions? In this course, your employees will dive into ways they can overcome their own unconscious bias. This is an important step to creating a fairer workplace.

Foundation

A collection of 140 courses, and growing, covering a range of skills, designed to kick start the learning journey.

Sample Courses

Product: Identifying the Problem

Your product ideas should solve customer problems, but customers won't always be willing to pay for that problem-solving product or service. This course will explain the factors around which ideas are worth developing.

Marketing: Segmentation

This course will look at exactly what market segmentation is, why it's important, some ways to segment, and some of the key considerations when it comes to segmenting.

Sales: Discovery

In this course, we are going to explore the process of discovery and how this stage of the sales cycle lays the foundations for a series of productive, meaningful interactions that will impact revenue enablement.

Customer Experience (CX): Feedback and Analysis

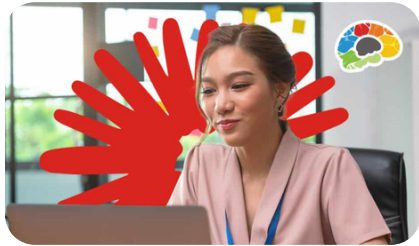

This course will look at what feedback and analysis are in a CX context, why they're important, the ways of gathering and measuring feedback, and what to do with the data.

Revenue Enablement

A comprehensive collection of 39 courses covering the go-to-market process, including how each team works collaboratively to contribute to revenue growth and deliver exceptional customer experiences.

Email Management

More than ever before people rely on email in the workplace – but we dread the amount of time it takes to read through and respond to all our messages. This course will give you the skills you need to tame your email mountain and use it as the effective tool it is meant to be.

Mastering Excel 365 – Beginner (2024)

When you master Excel, you have one of the most practical and valuable skill sets in modern business. You will learn to work wonders with your data—from organizing lists to creating charts and interactive reports. Excel will help you answer critical business questions like ROI, budget allocations, expense tracking, and more. This course is your first step towards becoming an expert at using Excel.

Microsoft Teams Meetings (2023)

Thanks to its features and ease of use, Microsoft Teams is quickly becoming the dominant meeting platform for businesses of all sizes. Don't be left behind! We'll take a look at the major features of Teams meetings, including its deep integration with Microsoft Outlook and collaboration tools like Microsoft Whiteboard and PowerPoint.

Business Productivity

A collection of 180 courses, developed in collaboration with our partner, Bigger Brains, on common Microsoft business applications and other popular desktop software.

Sample Courses

Slips, Trips and Falls

Slips, trips, and falls are not only the main source of workplace injuries, they also lead to significant business expenses. This interactive course informs learners about where slips, trips, and falls are most likely to occur and provides the information to avoid, minimize, and ideally eliminate these hazards.

HazCom: Are You GHS-Ready?

Chemicals enhance our lives but can pose risks if mishandled. OSHA's HazCom standard is designed to protect workers by ensuring proper labeling, safe handling, and easy access to critical information through Safety Data Sheets (SDS). HazCom: Are You GHS-Ready? prepares employees to comply with the revised standard, covering six classes of hazards, hazard signs on labels, nine pictograms, and 16 sections of SDS.

Personal Protective Equipment (PPE)

Personal Protective Equipment (PPE) is crucial in many workplaces as it significantly reduces the risk of injury and illness, safeguarding workers' health and safety. Globally, it is estimated that more than 2.3 million work-related deaths occur each year, with many of these being preventable through proper PPE use. Ensuring workers are equipped with and adequately using PPE can drastically lower these numbers and enhance workplace safety.

U.S. & Canada Environmental, Health, & Safety

A collection of over 280 courses, developed in collaboration with our partner, dss+, on essential workplace safety topics.
