Checklist: Addressing Learning Design Constraints

Design Constraints	Steps to Address Constraints	Notes
Limited development time	☐ Employ modular design ☐ Leverage AI authoring tools ☐ Reuse existing assets	
Tight or fixed budget	☐ Leverage templates ☐ Use free media libraries ☐ Explore open-source tools	
Varying learner access	☐ Design for mobile compatibility, low bandwidth, and offline use	
Inconsistent SME input	☐ Develop interview guides ☐ Use iterative feedback cycles ☐ Prioritize critical content	
LMS or tech limitations	☐ Align design with platform capabilities ☐ Avoid complex interactions that may not work	
Accessibility requirements	☐ Use screen reader-compatible formats, alt text, and captions
